

Digirad® System Service Agreements at Lower Prices. ...35% to 50% Lower

Low Service Pricing on Your Digirad® Nuclear Medicine System

CMS and Insurance reimbursements are being slashed and more healthcare system changes are on the horizon... It's not business as usual.

It's time to take a different approach regarding gamma camera service pricing. We offer 35%-50% lower service contract pricing on Digirad® systems. Some of our Digirad® agreements are about 50% lower. If your facility has one of these high-technology systems, we can help. Our business model is

service agreements at small facilities with one or two systems. With over 34 years experience in responsive and competent Nuclear camera services, we know how to maintain profits while keeping contract pricing low. This helps you maintain your imaging revenue stream without the high risk of abandoning service contract coverage.
